# ACTIVITIES FOR CHILDREN AT THE CASTLE

## THE ART OF QUILL

The castle workshop for children which smells like colour and ink will take you right back to the times of medieval scriptoriums. Become a **scrivener** and an **illuminator** just for a moment! Try your hand at writing skills at three work stations where you will find all necessary utensils. A goose quill, ink, stencils for borders and initials, seal-dies, and colours are waiting for you!

## TORTURE

A one-of-a-kind experience in the dreary **prison cells** intended only for the dreadnoughts! Figures of convicts that move and make sounds will educate you in **medieval torture** – the various torture techniques, tools and devices, forms of punishment, and the profession of the torturer. An inquisition chair, a rack or a mask for gossips are certainly not the scariest gadgets! **Do not hesitate and enter, if you dare!**

## mythical creatures

## SHTRAKAKAL

A gnome hiding behind the castle walls is **dreaded especially by children with unkempt hair!** With a brush in his hand, he chases little dishevelled rascals and hits the back of the naughty ones with a book. That is why you should enter the castle **with kempt hair and behave properly**, otherwise Shtrakakal will find you!

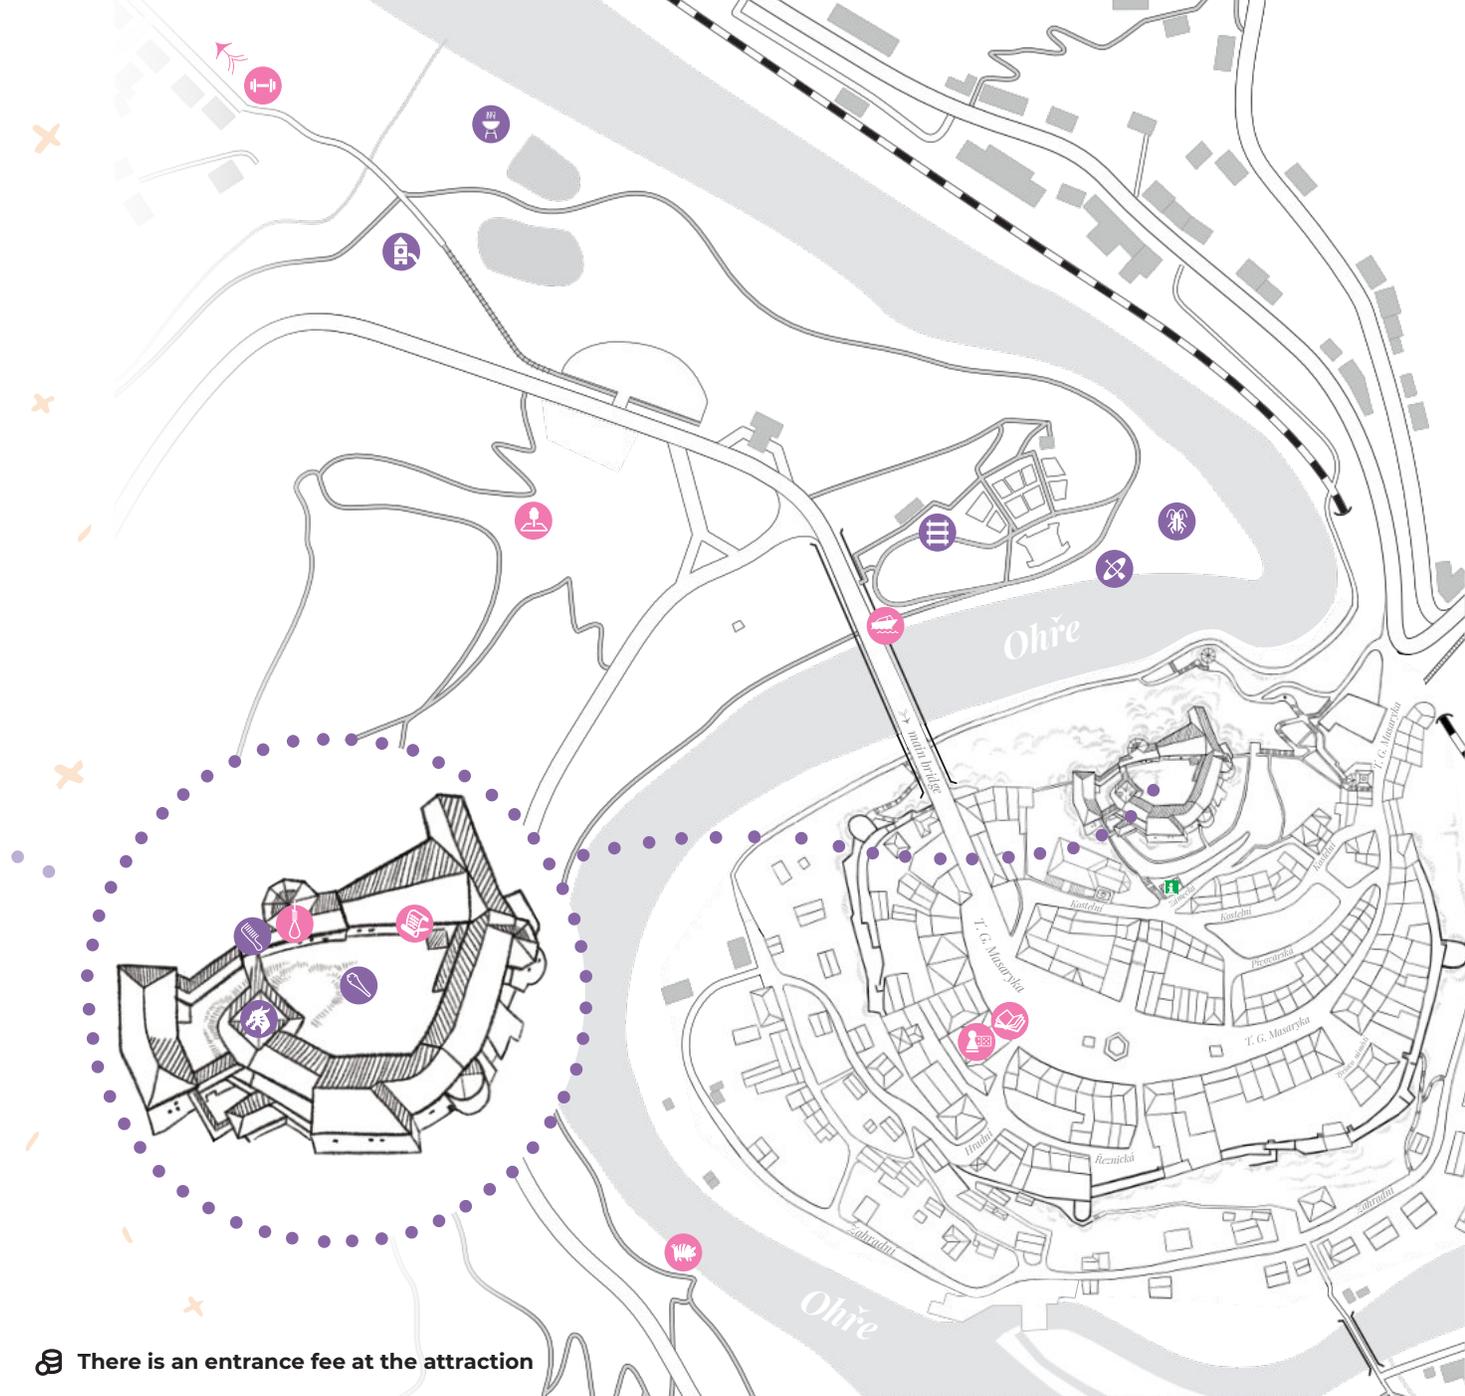

## GOTTSTEIN

The gnome is the **ruler of the Locket cliffs, rocks, and the underworld.** Pat his beard and wish for something, throw a coin or two in the castle money box to make sure your wish will come true! Beware! **Do not touch his club** as this will bring you bad luck that will not let you be!

## SHARKAN THE DRAGON

A **big dragon** has been sleeping in the castle tower from of old. You need not be afraid of him because he is nice! Legend has it that, a very long time ago, Locket housewives used to come to the dragon **for a spark to light their stoves.** You would not want to wake him up, though! When you climb the stairs to the castle tower, tiptoe quietly like a mouse!
